

BOREWELL COMPRESSOR PUMPS

BELT DRIVEN COMPRESSOR

Features:

- Shell moulded casting
- Interchangeable Standardized Parts
- Honed Cylinders to give Extra Long Life
- Crank and connecting Rod are made of special Alloy Steel Forgings.
- Needs no footvalve/Jet, hence easy to install and maintain.
- Water outflow through delivery pipe will be pulsated and not continuous.

MONOBLOC COMPRESSOR

Applications:

- Ideal for lifting water from deep borewells.
- Effectively used for agriculture, industry and domestic purposes.
