

BUFFER MOTOR

Features:

- Quality bearing in rear and front side of rotor
- Dynamically balanced rotor
- Graded winding with copper wires tested with surge and high voltage testing
- Energy efficient motors

Applications:

- Modern rice mills, rubber coir industries, stone crushers
- Textile mills, weaving and power looms
- Grinders, Polishers, Millers, Gold Jewellery Polishing

HP	0.5 to 15.0
Insulation Class	A. B
Speed	1440 / 2880 rpm
