

TRIPLEX PLUNGER PUMP

TECHNICAL DATA

Sl. No.	Description	Specification
1	Model	TPP 101
2	Type	Reciprocating
3	No. of Plungers	3
4	Displacement	11.5 lpm
5	Working Pressure	18.0 kgf / cm ²
6	Type of Drive	V Belt
7	Lubrication	Splash
8	Pump Speed	465 RPM
9	Type of Mounting	Base
10	Motor Power	1 HP
11	Motor Speed	1420 RPM

Features:

- Compact and light weight
- Adjustable outlet pressure for different applications
- Corrosion - Resistant stainless steel valves
- All working parts, connecting rod, crankshaft and bearing are lubricated by oil bath

Applications:

- Automobile workshops
- Service Stations
- Industrial Boiler Feed
- Food processing industries
- Cattle farms
- Pharmaceutical industries etc,
